

New Public Access Assessments Project Summary

Want to know more about Public Access Assessments (PAA), GPO's individual depository library assessment program? Please read the [new Project Summary](#) on the FDLP Desktop. The document discusses the purpose and history of library assessments, the PAA framework and process, responsibilities of Federal depository libraries, PAA scheduling, and GPO's Library Services and Content Management milestones and deliverables.

More information about PAA and other LSCM depository outreach activities will be forthcoming in the FDLP Desktop Outreach section.
